Run rate (Aug 2026)

\$852B

Valuation (Mar 2026)

~92%

Fortune 500 using ChatGPT

\$20.9B

2025 operating loss

01 Overview

The most broadly adopted AI product in the enterprise — roughly 92% of the Fortune 500 use ChatGPT and business customers passed one million in November 2025

Offering: ChatGPT across free, Plus (\$20/month) and Pro (\$200/month) tiers, enterprise plans, and the API and developer platform. An advertising pilot was added during 2026.

Key facts

HQ: San Francisco, California

Ownership: Private. \$852B post-money valuation from a \$122B round in March 2026 led by SoftBank and Microsoft. Confidential S-1 filed 8 June 2026; reporting indicates a 2027 listing is more likely than 2026

Revenue: Annualised run rate reported at roughly \$20B at end-2025, about \$25B by February 2026 and over \$40B by August 2026. Leaked audited figures indicate \$13.1B of booked revenue in 2025 against an operating loss of \$20.9B

Key people: Sam Altman (Chief Executive Officer) · Sarah Friar (Chief Financial Officer)

Digital twin: No · **GenAI:** Yes (GPT family)

02 Use Cases & Reported Metrics

Sector	Deployment	Reported impact	Source
Enterprise penetration	ChatGPT deployed across consumer, team and enterprise tiers, with the developer ecosystem expanding through the API.	Approximately 92% of the Fortune 500 use ChatGPT; business customers passed one million in November 2025;	Link
Revenue mix shift	A deliberate shift from consumer subscriptions toward enterprise contracts and developer API usage, with a new advertising line added during 2026.	Enterprise now above 40% of revenue and on pace for parity with consumer;	Link
Capital markets	A \$122B funding round at \$852B post-money in March 2026 led by SoftBank and Microsoft, followed by a confidential S-1 filed 8 June 2026 with Goldman Sachs, Morgan Stanley and...	Altman has reportedly treated any valuation below \$1 trillion as a non-starter;	Link

03 Competitive Landscape

Other vendors in this market: Amazon Web Services · Anthropic · Google · Meta · Microsoft · NVIDIA · Perplexity · xAI

Where it sits: For a portfolio programme, OpenAI's advantage is penetration: the product is already inside most organisations, often through individual and team subscriptions before IT gets involved, which makes governance rather than procurement the first problem to solve. The strategic risk to watch is what a listing does to the product.

04 GIP & BlackRock Connections

GIP became a wholly-owned BlackRock subsidiary in October 2024 and now operates as BlackRock's dedicated infrastructure-investment arm. Stakes below are standard institutional/index-fund positions unless otherwise noted.

Entity	Possible connection
Global Infrastructure Partners	No publicly disclosed GIP relationship. ChatGPT is near-certain to be present across PortCos already, frequently through unmanaged individual subscriptions
BlackRock	No publicly disclosed operating relationship. OpenAI is private; the March 2026 round was led by SoftBank and Microsoft.

05 Sentiment

Customer: Adoption is the strongest of any AI vendor tracked here and it arrived bottom-up rather than through procurement, which is both the strength and the governance problem.

What supports the story

- Roughly 92% of the Fortune 500 use ChatGPT, and over a million business customers — unmatched penetration
- Revenue run rate moved from about \$20B at end-2025 to over \$40B by August 2026
- Enterprise is now above 40% of revenue and closing on parity with consumer, shifting the mix toward contracted spend

What to pressure-test

- Leaked audited 2025 figures show \$13.1B of booked revenue against a \$20.9B operating loss — the run-rate numbers and the audited numbers are very different things
- Projected cash burn of roughly \$27B in 2026 and ~\$63B in 2027
- One analyst framing of the valuation is that it prices a monopoly outcome that does not yet exist

Employee: Not covered in this pass — headcount is not reliably disclosed and no employer-review data was gathered. One governance detail found: Altman reportedly holds no equity in the company.

Sources: OpenAI public filings/website, company fact sheets, Wikipedia, PitchBook/Crunchbase/Datanyze/BuiltIn profiles, Glassdoor employer reviews, vendor case studies and press releases as of Sept. 2026. Figures marked "est." or "not disclosed" are third-party estimates or unavailable — not company-confirmed — validate in diligence.
