02 Use Cases & Reported Metrics

Sector	Deployment	Reported impact	Source
AI revenue line	AI services reported as a distinct annualised revenue line, built on investments across the full stack from infrastructure to intelligence.	Annualised AI revenue passed \$1.8B in Q3 FY2026, surpassed \$2.3B in Q4, and reached \$2.6B by Q1 FY2027	Link
Client adoption	Generative AI frameworks embedded directly into client core operations rather than run as peripheral experiments, altering the commercial structure of outsourcing contracts.	54 of the top 60 global clients executing AI-embedded projects, with 10–15% productivity improvements reported... Workforce capability	Large-scale AI training through the WisdomNext platform, launched June 2024, covering foundational and advanced AI and machine learning competencies.	More than 217,000 employees trained in advanced AI competencies, with over half a million trained on foundational AI...	Link

03 Competitive Landscape

Other vendors in this market: Accenture · Aziro · Bain & Company · Booz Allen Hamilton · Boston Consulting Group · Capgemini · Cognizant · Deloitte

Where it sits: TCS has the most concrete AI evidence base of any services firm in this app. Krithivasan projects AI could reach 20% of total revenue; 54 of the top 60 global clients are already running AI-embedded projects; and management reports 10–15% productivity improvements on active AI projects.

04 GIP & BlackRock Connections

GIP became a wholly-owned BlackRock subsidiary in October 2024 and now operates as BlackRock's dedicated infrastructure-investment arm. Stakes below are standard institutional/index-fund positions unless otherwise noted.

Entity	Possible connection
Global Infrastructure Partners	No publicly disclosed GIP relationship. TCS is the most likely incumbent at large PortCos with existing offshore application or infrastructure contracts.
BlackRock	No publicly disclosed operating relationship.

05 Sentiment

Customer: Client behaviour contradicts the existential narrative that AI would collapse IT outsourcing budgets. TCV of \$40.7B, clients above \$100M rising to 66, and 54 of the top 60 clients running AI-embedded work all point the same way: budgets are being...

What supports the story

- The largest disclosed AI revenue line of any services firm tracked here — \$2.6B annualised and growing quarterly
- FY2026 TCV of \$40.7B, among the highest in company history, with three consecutive quarters of sequential growth
- Best margins in four years at a 19.8% net margin, up 80 basis points

What to pressure-test

- Headcount fell 23,460 in FY2026, including roughly 12,200 confirmed cuts concentrated in middle and senior management
- Growth is respectable rather than strong, and management has acknowledged high single-digit growth was difficult to achieve
- The 20% AI revenue projection is a CEO statement of direction, not guidance

Employee: The FY2026 picture is contraction at the experienced end alongside mass reskilling: headcount down 23,460, roughly 12,200 confirmed cuts focused on middle and senior management, while more than...
