## 02 Use Cases & Reported Metrics

| Sector                 | Deployment                                                                                                                                                                         | Reported impact                                                                                                       | Source               |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|----------------------|
| Business model shift   | The AI Native Business & Platforms unit, pivoting Wipro toward a services-as-a-software model — selling platform-delivered outcomes rather than staffed effort                     | Described by Pallia as a decisive investment to capture AI-era opportunities at scale                                 | <a href="#">Link</a> |
| AI delivery platforms  | The Wipro Intelligence programme, anchored on industry platforms, the Winx and Vega delivery platforms, and an Innovation Network with new labs in the US, Australia and the...    | Two large multi-year deals tied to Wipro Intelligence highlighted in Q3 FY2026;                                       | <a href="#">Link</a> |
| Commercial performance | Large deal bookings tracked as the leading indicator through a difficult demand environment, with growth sequentially broad-based across three of four markets and four of five... | FY2026 bookings of \$16.4B with \$7.8B of large-deal wins; Q3 TCV of \$3.3B with year-to-date TCV around \$13B, up... | <a href="#">Link</a> |

## 03 Competitive Landscape

**Other vendors in this market:** Accenture · Aziro · Bain & Company · Booz Allen Hamilton · Boston Consulting Group · Capgemini · Cognizant · Deloitte

**Where it sits:** The services-as-a-software pivot is the most explicit statement by any integrator in this app that the old model is finished. Selling outcomes delivered by platforms rather than hours delivered by people changes the commercial conversation fundamentally, and for a portfolio owner that is the direction to push every services vendor...

## 04 GIP & BlackRock Connections

GIP became a wholly-owned BlackRock subsidiary in October 2024 and now operates as BlackRock's dedicated infrastructure-investment arm. Stakes below are standard institutional/index-fund positions unless otherwise noted.

| Entity                         | Possible connection                                                                                                                                 |
|--------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Global Infrastructure Partners | No publicly disclosed GIP relationship. Most likely to appear as an incumbent at a PortCo with an existing applications or infrastructure contract. |
| BlackRock                      | No publicly disclosed operating relationship.                                                                                                       |

## 05 Sentiment

**Customer:** Pallia describes a macro environment that remains resilient while uncertainty shapes decision-making — spending measured with more rigour and longer decision cycles.

### What supports the story

- The services-as-a-software pivot is the most explicit break with the hours-based model of any integrator tracked here
- Operating cash flow at 112.6% of net income with over \$1.3B returned to shareholders
- FY2026 bookings of \$16.4B and year-to-date TCV up roughly 25% in Q3 — the order book is healthier than the revenue line

### What to pressure-test

- Q1 FY2027 IT services revenue grew just 0.9% at constant currency and fell 1.2% sequentially — the weakest in its peer set
- Operating margin fell 1.2 points to 16% on salary increases, large-deal ramp-ups and AI investment
- Americas 2 revenue declined 7.3% year over year and 2.5% sequentially

**Employee:** Not covered in this pass — headcount was not disclosed in the results reviewed and no employer-review data was gathered.
