03 Competitive Landscape

Other vendors in this market: Aziro · Bain & Company · Booz Allen Hamilton · Boston Consulting Group · Capgemini · Cognizant · Deloitte · DXC Technology

Where it sits: Accenture and Deloitte are now effectively tied at the top — Deloitte reported \$70.5B for the year ended 31 May 2025 against Accenture's \$69.67B for the year ended 31 August 2025, though the fiscal years do not line up.

04 GIP & BlackRock Connections

GIP became a wholly-owned BlackRock subsidiary in October 2024 and now operates as BlackRock's dedicated infrastructure-investment arm. Stakes below are standard institutional/index-fund positions unless otherwise noted.

Entity	Possible connection
Global Infrastructure Partners	No publicly disclosed GIP relationship. Accenture works across every infrastructure sector GIP invests in, so any engagement is most likely to arrive through a PortCo's existing master services agreement rather than at fund level.
BlackRock	No publicly disclosed operating relationship. BlackRock funds hold ACN as a standard index position — a capital-markets fact, not evidence of a commercial relationship.

05 Sentiment

Customer: Client retention is the strongest signal in the file — 195 of the top 200 clients have been with the firm for a decade or more, and FY2025 produced a record 129 quarterly bookings above \$100M.

What supports the story

- Only firm in this peer set reporting AI as a disclosed revenue line — \$2.7B in FY25, tripled year over year
- \$80.6B of FY2025 new bookings with a book-to-bill above 1, and management claiming market-share gains at more than 5x the market
- Ecosystem breadth: a top-tier partner to every major cloud and enterprise software vendor, which matters when the client's stack is already fragmented

What to pressure-test

- Growth has slowed materially: FY2026 guidance of 2–5% local currency against 7% delivered in FY2025
- A six-month business optimisation programme took a \$615M charge in Q4 FY2025, including \$344M of severance — roughly 22,000 roles were cut for staff deemed non-reskillable
- Federal business (AFS) is a drag on FY2026 growth, worth about 1.5 points

Employee: Accenture's own January 2026 Pulse of Change survey found worker confidence in AI job security had fallen to 48%, down 11 points from summer 2025, and that only 40% of employees felt ready for...
